

Tufts in London UAL Grade Conversion

The majority of SMFA/UAL programmes are credit-only and are recorded on Tufts transcripts as such. For CD students in specific programmes, however, the letter grade they receive from UAL translates directly to their Tufts transcript without inflation.

The only exception to this rule is for students who are offered the ability to re-submit an assignment for a capped mark (this happens if a student received an E on their first submission or submits after the deadline). Students who re-submit with a capped grade will receive the lowest passing grade from UAL (D). If this happens the grade will be converted to a C- at Tufts.
